Join us as we work together to support our International Outreach efforts. This is a group for people with a heart for International Outreach who want to help when needed to make decisions and help direct and promote our International Outreach efforts. Our focus is on reaching the unengaged-unreached people groups and doing our part to help finish the task of reaching every tribe, tongue, and nation with the truth of Christ. We do not hold regular meetings. We will meet as needs arise to make decisions and to promote and support specific events and projects.
